Kromade stålrör ger en snygg avslutning på avgassystemet. Välj vilken ände som ska vara utåt och kapa till önskad längd. Rören passar utanpå 2"-rör och kan göras fast med klamrar. Chrome pipes gives your exhaust system a stylish finish. Choose which end you wish to use as a tailpipe and then cut to the right length. The pipes fit outside 2"-pipes.

Fyllnadsmuffar/Spacers

Placeras inuti muffar för att överbrygga skillnader i rördiameter. Använd till exempel AP63-60 inuti en 2 1/2" muff för att klamma mot ett 60 mm rör. Should be used to reduce pipework diameter, e.g. AP63-60 will reduce a 2 1/2" I/D pipe to 60 mm.
